

Delivery and Professional Fees for Hanan *Learning Language and Loving It* Program

Logistics

Location: All videotaping sessions are held on site at the preschool/daycare. In-class sessions can be held at the preschool/daycare or at the office of Shoreline Speech Therapy. This can be arranged upon registration. In cases where teachers from more than one centre/school are participating, in-class sessions will be held at Shoreline Speech Therapy or an agreed upon location.

Time of Day: Scheduling is flexible. Group in-class sessions can be held during the day, evenings, or on Saturdays. Videotaping will take place during your centre/school's operating hours.

Group Session Component: In-class sessions are held as a group. The topics introduced at each session build upon one another.

Videotaping Component: These sessions take place one-one-one with the S-LP at the teacher's place of work. While the teacher interacts with some of their students, the S-LP will videotape a five- to seven-minute interaction as they practice implementing the strategies taught in preceding group sessions. These interactions will have been planned ahead by the teacher. Coaching in the moment will be provided as appropriate. After all participating teachers have been video recorded, one-on-one feedback sessions will be provided in which the teacher and S-LP review the video together and discuss the application of the strategies. Teachers may choose to conduct these feedback sessions privately or as a group; this is at the discretion of the participating teachers. Shoreline Speech Therapy is responsible for providing and setting up recording equipment.

Group Size: Centre-based / school-based programs in which participants are from the same centre: 15 max. Programs in which participants are from different centres/schools: 10 max.

Consent for Videotaping Students: Consent will need to be asked of the parents of the child/children who are expected to be videotaped. A consent form will be provided by Shoreline Speech Therapy. The educator/director will seek consent from the parent(s) and return the form to Shoreline Speech Therapy by Session 2 at the latest. Videotaping will only proceed after this consent has been obtained.

Session Topics

- Session 1: Take a Closer Look at Communication
- Session 2: Let the Child Lead
- Session 3: Taking Turns Together
- Session 4: Encourage Interaction in Group Situations
- Session 5: Provide Information and Experiences which Promote Language Learning
- Session 6: Let Language Lead the Way to Literacy
- Session 7: Foster Peer Interaction
- Session 8: Wrap-up
